Free Translation

It was the white-lipped peccary. They went after white-lipped peccaries. He killed some peccaries with bow and arrow. He went running after them. He went after them.

Someone picked up a peccary and put it on his shoulder. He took the peccary away.

He came running back, and went. "Someone took away my peccary," he said. "He went away, taking the peccary. Wait, let him take it." He came back. He called to his older brother. "Brother, someone took away my peccary and went away. Someone took away a peccary that fell in front of me. I don't know."

He was ready to go. They were ready to go. They went after him. There was smoke going up, the smoke of their fire. The smoke was going sideways. He was cooking the peccary, and he came back.

"He's coming, he's coming, he's coming, he's coming."

Why didn't he shoot him with an arrow when he went under water? He allowed him to escape. When he went under water, he didn't shoot him with an arrow.

He came to the water, and undid his breechcloth. His penis, which was hung up, fell down. "Oh my goodness! Look at the penis!"

As they were looking at his penis, he came to the water. He came to the water to take out the manioc mash, that was in the water. He was feeling with his feet. He went underwater, splash. The basket was not completely full. He came out of the water holding on his shoulder the middle of the full part. "Hoo, oho." He washed off the basket. After he finished washing off the basket, he took the basket up the bank and set the basket up. He was ready to leave. He put his breechcloth back on. He secured his penis, too. After he secured his penis, he put the manioc mash on his shoulder, and went away walking fast. His legs were moving fast. He went, and disappeared.

"Older brother, let's go. Let's shoot them with arrows. Let's fight them."

"Let's not fight them right now. Wait, I want to hear what my brother-in-law will say first. Come on, let's go home."

The two of them went home. When they went home, they appeared.

"We112"

"Aa, they are living there. I think we should attack them with arrows. Do you think we should attack them with arrows?"

"I don't know."

"Let's hit them with arrows."

"Let's do it. When we have come back, we will pass on by. Let our roasted peccaries stay her on the roasting rack for now. Let's go after them. It should be at night. When the sun goes down and it is dusk, we will go and will stand over there. When we are standing there, it will get dark on us. After it has gotten dark on us, they will die."

"They are always naughty, they came back. We saw the penis that makes the Yima woman suffer, the big penis, like a tree. It was like a fallen tree that was hung up. It was swinging. We watched it as he brought it to the water. 'Oh my,' I said. Wait, the vultures will eat him."

They were ready to go. They were ready at sundown.

"Is it far?"

"It's not far. We went, and we crossed the stream, and we went along the edge. We went, and the place where he had tied up the peccary that he had picked up was there. We found him after he had taken the peccary away. The smoke was coming up from the fire. They were standing there splitting firewood. He lifted the manioc mash onto his shoulder and took the manioc mash. They were eating the peccary with old manioc mash. We came upon him. They were eating."

They slept in late. They ate the meat with old manioc mash. They ate old manioc mash, and they slept in late. They came upon them, and they were standing in back of the house. They were standing there, watching them.

He came toward them to take a bath. He squatted in the water. He was making bubbles in the water. He went around, and came to the surface. He didn't bathe very long. He stood on the bank. He went up the bank.

"You didn't believe me. Look at the penis."

"Oh my. She suffers from the bad penis."

They were ready. It was getting dark. They watched him as he went to defecate. He went and defecated. He came back. He went into the house. He was not afraid.

He went there.

"Don't just look at them. Come on, let's go home [that is, let's kill them quickly so we can go home]. We will go home with their torches."

He went there. He had taken snuff, and he said, "Toho, toho, toho." He hit him with an arrow. He hit them with arrows. They were hitting them with arrows. The Yimas didn't kill anyone. They were carrying arrows in their backs. They forgot about their weapons. There were many of them. They killed them with bow and arrow.

They came home. They put the roasted peccaries in [baskets] and carried them during the night. They came back, and they arrived. They arrived back. "Whew, look at us. The Yimas almost ate us. My arrows are all gone because of the Yimas. We killed many Yimas with arrows. Don't cry for them."

They died. They told about them, that they had died.

The Yimas had many houses where Santana is today. Some of them lived there, while others lived at Wara. Still others lived downstream. A number of them died. When the ones who lived at Santana ate Mayawari, they wanted to fight against them, but they didn't. They went across [the Purus River]. I guess they live over there on the other side. They swam across. Their village is there. They swam across because they wanted to kill them. They killed a number of them. They were after them to kill them. They disappeared, and Santana is their village. They disappeared from Santana. They went. They swam away.

After going after them, they came back. "They went into the water. There wasn't anyone there, so they didn't die. They went into the water." Because they had gone into the water, they came back, and arrived. Then didn't come anymore. They went into the water. They went onto the shore, their wives. They went into the water with their wives.

They came back, and arrived. The Yimas disappeared. I told you before about them fighting against them before they disappeared. They killed people before swimming across.
